

E series - leveling mounts

VibraSystem Inc. E series mounts are economical leveling mounts made of plated steel and neoprene pads. Diamond cell neoprene pads provide a firm footing and can compensate for slight unevenness in the floor.

Recommended for:

VibraSystem Inc. E series mounts are ideal for a wide range of applications where simple, precise leveling is required.

Features:

- ✓ Diamond cell neoprene base provides firm grip/ footing with the floor.
- ✓ Reduce noise and minor vibrations.
- ✓ Fast, simple, and precise leveling.
- ✓ Mount design compensates for slightly uneven floor.
- ✓ Zinc plated for better corrosion resistance.
- ✓ Resistant to oil and cleaning compounds.

Model	Non-Impact (lbs)	Impact (lbs)	Dimensions in inches				Thread
			D	H	L	h	
E-1500	1,500	750	3	4	3	3/4	3/4-10 UNC
E-1500 WB	1,500	750	3	4	3	3/4	3/4-10 UNC

Note:

Model E-1500 WB has a food grade rubber compound elastomer (white nitrile).
