

ESS Series STAINLESS STEEL MOUNT

These mounts are ideal for wide range applications where simple, precise leveling is required. Diamond cell neoprene pads provide a firm footing and can compensate for slight unevenness in the floor. **ESS Series** mounts are also available in Cold Rolled Steel type **E Series**.

- Load capacities of up to 1,500 lbs per mount.
- Fast, simple and precise leveling for all types of machinery.
- Controls vibration, shock and noise.
- Resistant to oil and cleaning compounds.
- Save on installation costs, no cementing required.
- Meets OSHA requirements for anchoring machinery.
- Economical and can be reused when relocating or on other machines.
- Non-marking white elastomer base available for E series.

ESS Series also available in Cold Rolled steel.
