

E Series LEVELING FEET

These mounts are ideal for a wide range application where simple, precise leveling is required. Diamond cell neoprene pads provide a firm footing and can compensate for slight unevenness in the floor. **E Series** mounts are also available in stainless steel type **ESS Series**.

SPECIAL FEATURES:

- Load capacities of up to 1,500 lbs per mount are covered by the E & VL series mounts.
- Fast, simple and precise leveling for all types of machinery.
- Controls vibration, shock and noise.
- Resistant to oil and cleaning compounds.
- Save on installation costs, no cementing required.
- Meets OSHA requirements for anchoring machinery.
- Economical and can be reused when relocating or on other machines.
- Zinc plated to provide corrosion resistance.
- Non-marking white elastomer base available for E series.

E Series also available in Stainless steel **ESS Series**.

* White elastomer insert
